INDEX TO VOLUME 53

Adler, Bella, Growth pattern in Israeli children 239–49

Admixture estimates in Black Caribs 87–103

Aging, increase of diaphysial transverse lines during, in Japanese 399–401

Ahern, Frank, M., Racial/ethnic differences in lactose absorption and tolerance 1–13

Androgen levels in serum, age differences in normal adult males 499–511

Anemia among Samoan women 269–79

Asymmetry, bilateral, of cortical bone of the humerus and tibia 69–86

Babler, W. J., Organ weight patterns in human fetal development 355–66

Bailey, Stephen M., Effects of body size on sexual dimorphism in fatness, volume and muscularity 337–54

Barr, M., Organ weight patterns in human fetal development 355–66

Berenson, G. S., ABO blood groups and serum lipid and lipoprotein levels 411–37

Bielicki, Tadeusz, Influence of socio-economic factors on stature in Polish military conscripts 543–55

Births, seasonality of, in Görlitz, Germany 15–22

Blackburn, Will R., Method for comparing growth in a study group with means and standard deviations of a control group 513–20

Blacks, American, mortality of, explained by heterogeneity of the aging process 47–67

Blood groups, ABO, and serum lipid and lipoprotein levels 411–37

Blood groups of Black Caribs 87–103

Blood pressure, genetic determinants of, in Black Caribs 453–66

Body density and skinfolds 181–225, 575–92

Body volume, sexual dimorphism in, 337–54

Bogin, B., Nutritional and biological determinants of body fat patterning in urban Guatemalan children 259–68

Boileau, R. A., Body density estimates from skinfold thicknesses, body circumferences and skeletal widths 575–92

Bone, cortical, asymmetry in, and sex and age 69–86
Bone, human, protein in, after 200, 1200 and 1500 years 137–50
Book reviews 151–62, 281–93, 481–93, 645–8
Cohen, B. H., A. M. Lilienfeld, and P. C. Huang, eds., Genetic issues in public health and medicine 284–7
Day, R. A., How to write and publish a scientific paper 646–8
Falkner, F., and P. Vesin, Growth and development of the child: 25 years of internationally coordinated activities 484–8
Fischer, E., Minorities and minority problems 645–6
Frisancho, A. R., Human adaptation. A functional interpretation 281–3
Glucksmann, A., Sex determination and sexual dimorphism in mammals 160–2
Harper, William S., and Albert B. Harper, eds., The first Americans: Origins, affinities and adaptations 488–93
Jacquard, A., (translated by D. M. Yermanos), Genetics of human populations 152–4
Mata, L. J., The children of Santa Maria Cauque: A prospective field study of health and growth 291–3
Mavalwala, J., Dermatoglyphics. An international perspective 289–91
Morbeck, M. E., H. Preuschoft, and N. Gomberg, eds., Environment, behavior, and morphology: Dynamic interactions in primates 154–7
Reynolds, V., and N. Blurton Jones, eds., Human behavior and adaptation 157–60
Schull, W. J., and R. Chakraborty, eds., Human Genetics: A selection of insights 151–2
Shephard, R. J., Human physiological work capacity 481–4
Somogyi, J. C., and J. F. DeWijn, eds., Nutritional aspects of physical performance 287–9
Brain weight relationship to head circumference in early infancy 351–4
Brown, Peter J., Distribution of malaria, thalassemia and G-6-PD deficiency in Sardinia 367–82
Burdi, A. R., Organ weight patterns in human fetal development 355–66

Charzewski, Janusz, Influence of socio-economic factors on stature in Poland 543–55
Cholesterol levels: and ABO blood groups 411–37; in well-trained and untrained young adults 251–7
Christensen, Uffe, Body mass index of Danish young men during the period 1943–1977 403–10
Clarkson, Pricilla M., High density lipoprotein cholesterol in young adult weight lifters, runners and untrained subjects 251–7
Cole, Robert E., Racial/ethnic differences in lactose absorption and tolerance 1–13
Contraceptive use among Navajo women 439–52
